

HARI PRASATH

Coimbatore, Tamil Nadu | +91 6369113681 | hariprasathv08@gmail.com

Junior Cybersecurity Analyst | SOC | Linux & Networking

PROFESSIONAL SUMMARY

Cybersecurity-focused Computer Science graduate with a strong foundation in networking, Linux, and cybersecurity fundamentals, along with hands-on experience building secure and responsive websites. Skilled in identifying security vulnerabilities, implementing web security practices, and developing web applications. Quick learner with strong problem-solving skills and a passion for cybersecurity and secure web development.

CORE SKILLS

Security Monitoring & SOC: SIEM Tools (Wazuh), Threat Detection & Analysis, Log Analysis, Incident Response, Defender XDR concepts.

Hardware & Troubleshooting: PC/System Troubleshooting, OS Installation & Configuration.

Networking: TCP/IP, DNS, HTTP/HTTPS, VPN, Firewalls.

Operating Systems: Windows & Linux Environments, Authentication/Authorization/MFA.

Scripting & Automation: Python, Bash — transferable foundation for PowerShell scripting and workflow automation.

Security Tools: Kali Linux, Nmap, Wireshark, Wazuh, Burp Suite, UFW.

AI-Assisted Cybersecurity & Workflow Automation: Leveraging AI tools to improve efficiency, analysis, problem-solving, and task automation.

Soft Skills: Communication, Teamwork, Adaptability, Quick Learner, Fast Adoption of New Tools and Technologies.

PROJECTS

ThreatVision - Real-Time Cybersecurity SIEM Platform

Python, Flask, SQLite, JavaScript, Windows Security APIs

- Developed a Windows SIEM/XDR platform for monitoring security events, network activity, firewall status, processes, USB devices, and file integrity.
- Implemented security alert correlation, device telemetry, MITRE ATT&CK mapping, and security reporting for SOC monitoring.

SupportFlow IT - IT Support & Ticket Management System

Python, Flask, SQLite, JavaScript

- Developed an IT support platform to manage user issues, service requests, ticket assignment, and resolution tracking.
- Implemented ticket status management, priority handling, user support workflows, and centralized issue tracking to improve IT support operations.

Secure-FW - Linux Firewall Automation Tool

Bash, Linux, UFW

- Developed a firewall automation tool for port management, website blocking, and suspicious IP blocking.
- Implemented authentication-log analysis to detect potential SSH brute-force activity and automate defensive firewall actions.

VertexERP AI - AI-Powered ERP Platform

Python, FastAPI, SQLite, Google Gemini API, JavaScript

- Developed an AI-powered platform for invoice processing, vendor management, and business automation.
- Integrated Gemini API, JWT authentication, REST APIs, and fallback handling for AI-assisted workflows.

HANDS-ON EXPERIENCE

Wazuh - SIEM/XDR Practice

- Hands-on practice with SIEM/XDR monitoring, log analysis, security alert detection and investigation, Wazuh Dashboard, and basic SOC alert triage workflows.

I Ping U - Network Security

Oct 2025 - Nov 2025

- Performed network troubleshooting and ICMP diagnostics to identify connectivity issues.
- Applied router security configurations and basic network security practices.

EDUCATION

B.Sc. Cybersecurity (Pursuing)

July 2024 - Present

Rathinam Global Deemed to be University, Coimbatore, India
